Made in France

A laboratory based in Castres
in the south of France, with a
network of French partners

High tolerance

Safe formulas and
a physiological pH

Ease of use

Practical and easy
to use solutions

For the well-being and
comfort of your family

Rediscover the pleasure
of cuddling your animal!

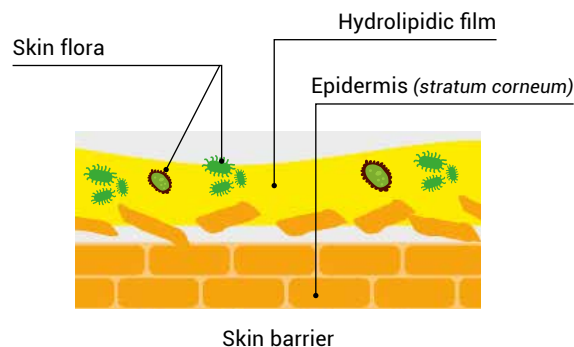

It's our mission to deal with skin disorders!

The skin barrier: an essential role

The skin barrier, what's that? It is the **protective layer** on the surface of your animal's skin which acts as a **barrier against aggressions** from the outside environment.

Taking care of the skin barrier is important because when it is **damaged**, your animal's skin is vulnerable and problems can appear: **bad odors, redness, dandruff, excessive hair loss, skin flora imbalances...**

The Dermoscent® solution

Essential fatty acids

You may know them under the name of **Omega 3 and 6!** These fatty acids are called essential because they are indispensable but cannot be synthesized by your animal.

At Dermoscent®, our essential fatty acids are **plant-based**, and can be **applied directly on the skin** for an easy application and a fast effect.

For a healthy skin barrier!

Essential oils & other natural ingredients

The essential oils and other plants extracts provide the skin with **numerous benefits**.

Dermoscent® products are developed by specialists who perfectly master dosages to ensure the best efficacy and safety.

For each need...

Directions for use: follow our tutorial videos!

How to clean
your pet?

How to use a solid or liquid shampoo?

- Apply to wet coat and lather
- Leave on for at least 2 minutes and rinse abundantly
- Renew the process if necessary
- Wipe-off with a towel, brush and leave to dry

Liquid shampoo

Solid shampoo

How to apply a rinse-free foam?

- Shake the bottle
- Fill the palm of the hand
- Massage against the direction of hair growth
- Remove the dirt with a towel
- Brush and leave to dry

In case of a skin infection, the use of gloves is recommended to bathe your pet.

Coat maintenance

PHYSIO Easy Brush

Rinse-free natural detangling foam

- Facilitates brushing and knot detangling
- Prevents the formation of knots
- Helps protect the hair structure
- Improves coat shine and softness

Natural formula – Silicone-free

Quick & easy foam application

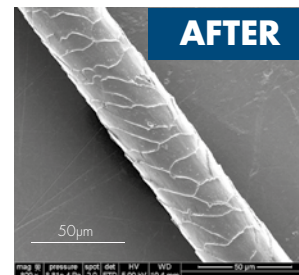

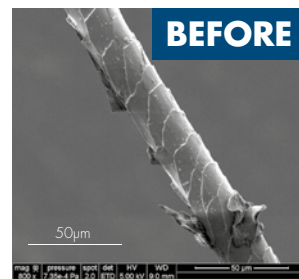

As often as necessary.

  150 ml

 Moka, yorkshire

 Pepsi, fox terrier poodle cross

KEY INGREDIENTS

SILICONE-LIKE FROM
SUNFLOWER OIL
(C15-19 ALKANE)

HYDROLYZED
RICE PROTEINS

ABYSSINIAN CRAMBE
SEED
OIL ESTERS

NIAOULI
ESSENTIAL OIL

■ Directions for use: follow our tutorial videos!

How to use PHYSIO Easy Brush?

- Shake the bottle
- Apply on the coat insisting on knots
- Brush and leave to dry

Ear hygiene

■ Essential Oto®

Physiological ear cleanser

- Removes excess earwax and debris
- Deodorizes

"Twist-open" cap allowing a practical single-handed use.

Once to twice a week depending upon ear canal dirtiness.
Remember to disinfect the nozzle after each application.

100 ml / 3.38 fl.oz.

KEY INGREDIENTS

GREEN APPLE
LIPOAMINO ACIDS

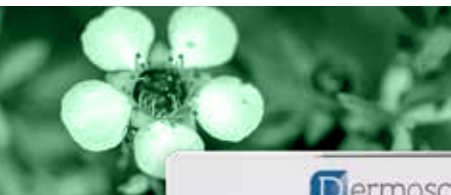

SAPONARIA ROOT
EXTRACT

NIAOULI
ESSENTIAL OIL

HEMP SEED OIL

KEY INGREDIENTS

GREEN APPLE
LIPOAMINO ACIDS

HONEY &
PROPOLIS

RED MYRTLE
ESSENTIAL OIL

N-ACETYLCYSTEINE

■ PYOclean® Oto

Purifying ear cleanser

- Removes excess earwax and debris
- Deodorizes
- Helps purify and soothe the ear canal

Hygienic and practical single-doses.

During otitis externa: once a day to cleanse and prepare the ear canal prior to receiving medication.

For maintenance to limit relapses: once a week.

10 single-doses x 5 ml / 0.17 fl.oz.

■ Directions for use: follow our tutorial videos!

.....

How to apply an ear cleanser?

- Hold your pet in a comfortable position in front or next to you
- Tilt the head slightly and pour in the product until the canal is filled
- Massage the base of the ear from the bottom upwards
- Let your pet shake the head and wipe away the excess with a compress or cotton pad
- Repeat with the other ear
- Remember to give your pet a treat

The use of cotton swabs is not recommended as it drives the earwax more deeply into the ear canal.

Bad odors, dandruff, hair loss, greasy skin

Sebo-regulating line

Essential 6[®] Sebo Shampoo

Sebo-regulating shampoo

- Gently cleanses without soap
- Removes dandruff and bad odors
- Enhances coat shine
- Helps rebalance greasy or scaly skin
- Protects the skin barrier while hydrating the skin

Targets bad odors without masking them.

Once to several times a week.

200 ml / 6.76 fl.oz.

SAPONARIA ROOT
EXTRACT

NIAOULI
ESSENTIAL OIL

HEMP SEED OIL

Essential 6[®] spot-on

Hydrating regulating spot-on

Essential 6[®] spot-on combines 6 actions to help:

- Hydrate the skin and reinforce the skin barrier
- Enhance coat shine
- Reduce dandruff and slow down hair loss (excluding seasonal shedding)
- Promote hair regrowth
- Deodorize while respecting the animal's sense of smell
- Protect the skin thanks to its antioxidant effect

Helps space out shampoos.

Can substitute the daily oral intake of essential fatty acids (Omega 3 & 6).

Easy and quick application.

Patented.

Initial care:

1 pipette a week for 2 consecutive months.

Maintenance:

1 pipette every 2 weeks as long as necessary. For small mammals (rabbit, ferret, guinea pig, hamster, rat, mouse, etc.), apply from a few drops to 1 entire pipette depending on the weight of the animal.

4 pipettes

KEY INGREDIENTS

PEPPERMINT
ESSENTIAL OIL

ROSEMARY
ESSENTIAL OIL

HEMP SEED OIL

VITAMIN E

How to apply a spot-on?

■ Directions for use: follow our tutorial videos!

- Break the top of the pipette
- Part the coat
- Apply between the shoulders, at 1 or 2 points directly on the skin
- For animals with long or abundant hair, brush the coat the day after application to remove residue
- Do not bathe the animal 2 days before or after application
- No need to massage the spot of application, a bio-diffusing agent will enable an optimal diffusion to the entire body

No known interaction with any other spot-on

■ ATOP 7[®] spot-on

Soothing and repairing spot-on

- Hydrates, protects and promotes skin barrier repair
- Helps soothe sensitive, irritated skin

1st 100% natural spot-on specifically designed for atopic skin needs.

Can substitute the daily oral intake of essential fatty acids (Omega 3 & 6).

Easy and quick application.

1 pipette a week as long as necessary.

4 pipettes

■ KEY INGREDIENTS

PHYTOCERAMIDES

TURMERIC
ESSENTIAL OIL

WINTERGREEN
ESSENTIAL OIL

OIL

NEEM LEAF
EXTRACT

Redness, itching, dry skin

Soothing line

■ ATOP 7® Hydra Cream

Moisturizing fluid cream

- Hydrates the skin durably
- Restores skin suppleness and nourishes intensely
- Protects and helps reinforce the skin barrier to ensure protection against external aggressions
- Penetrates very quickly thanks to its fluid and light texture to help relieve distressed skin.

Ideal for localized hairless areas.

Discourages the animal from licking thanks to its bitter taste.

Once to twice a day.

50 ml / 1.66 fl.oz.

KEY INGREDIENTS

OLIVE SQUALANE

RED MICROALGAE EXTRACT

ORANGE ESSENTIAL OIL

HEMP SEED OIL

■ ATOP 7® MAX hydra

Protective hydrating mist

- Intensely hydrates the skin
- Promotes the development of beneficial skin flora to ensure a healthy skin microbiome
- Protects and helps reinforce the skin barrier

Its mist effect enables an easy and homogeneous application on a large surface.

No need to spread with hands. Non sticky.

2 in 1 solution: hydration of the skin & balance of the skin flora

Deters the animal from licking thanks to its bitter taste

Once to twice a day.

200 ml / 6.76 fl.oz.

KEY INGREDIENTS

PRE & PROBIOTIC COMPLEX

HEMP SEED OIL

Redness, itching, dry skin

Soothing line

■ ATOP 7® Spray

SOS soothing spray

- Helps reduce irritation and soothe itchiness
- Hydrates, protects, and helps reinforce the skin barrier
- Penetrates very quickly thanks to its ultra-fine texture and helps relieve distressed skin
- Creates an invisible protective and non-occlusive film, like a "second skin", for a durable action

Patented. Steroid free.

1 to several times a day. Can be used alone in mild to moderate cases or as complementary care in more severe cases. For animals with an aversion to sprays, apply the product with a cotton pad or gauze.

75 ml / 2.5 fl.oz.

KEY INGREDIENTS

CAPER FLOWER
BUD EXTRACT

CAJUPUT
ESSENTIAL OIL

RICE EXTRACT

HEMP SEED OIL

■ ATOP 7® Shampoo

Soothing cream-shampoo

- Gently cleanses without soap
- Helps soothe irritation and itchiness
- Protects the skin barrier while hydrating the skin

Smooth creamy texture for maximum comfort.

Once to several times a week.

200 ml / 6.76 fl.oz.

KEY INGREDIENTS

CLEANSING AGENTS FROM COCONUT

CAPER FLOWER BUD EXTRACT

WINTERGREEN ESSENTIAL OIL

HEMP SEED OIL

■ ATOP 7® Mousse

Rinse-free cleansing and soothing foam

- Gently cleanses without soap

organic-certified
and GMO-free.

CAJUPUT
ESSENTIAL OIL

#DermoscentFamily testimonials!

- # "My dog had a very dry, cracked nose. At first, I didn't believe it would work. But in just a few days, her nose is all smooth and "repaired". Great product; don't hesitate!" Emeline
- # "I discovered Dermoscent® through this product. As I do a lot of activities with my dog, protecting and caring his paw pads is very important. I did some research to find out which product would be most effective, and your balm was the one that convinced me the most. I use it before and after each run, on top of a protocol of 10 consecutive days' application every 2 months. A perfect example: one month ago, Meiko had a small wound on his paw pad after a run, and Dermoscent BIO BALM® was very helpful in healing it." Louis D.
- # Recommended by professional mushers like Jean-Philippe PONTIER and Cindy DUPORT.

Boo-boos, damaged skin

■ Cicafolia®

Repairing gel-serum

- Supports the natural skin repair process
- Helps hydrate and purify the skin
- Creates a protective non-occlusive film on the surface of the skin
